

It has been recently brought to my attention that the State of Wisconsin's No Call List is in jeopardy. I think it would be a great disservice to the people of Wisconsin if you were to undo what has already been effective thus far. I prefer to have the stricter rules placed on the people/businesses calling my house to peddle their goods. I don't want that type of call coming into my house and I believe I should have the right to choose who does and doesn't call me. I don't give out my number to people I don't want calling me, why should someone else? Leave things as they are. Don't allow this to happen.
